Mohd Murtaza

Full Stack Web Developer

PROFESSIONAL SUMMARY

Passionate full-stack developer skilled in HTML, CSS, JavaScript, and React, backed by strong expertise in Node.js and Express.js. Collaborative and proactive, I excel in translating project requirements into functional web applications. Committed to continuous skill enhancement and staying updated with the latest web development trends.

PROJECTS

1. Fiverr Clone | 🌐 | 📱

React | Node.js | HTML5 | CSS3 | Java Script | Chakra UI | Express.js

- Utilized HTML5, CSS3, and React to create dynamic and engaging user interfaces.
- Implemented Node.js, Express.js, and MongoDB for efficient server-side logic and scalable data management.
- Implemented secure user authentication and password management features.
- Seamlessly integrated dummy Razorpay payment gateway for secure and real-time online transactions.
- Implemented intuitive filters and ensured full responsiveness for improved navigation and interaction.
- Utilized Chakra UI for visually appealing and consistent design elements.

2. Expedia Clone | 🌐 | 📱

HTML5 | CSS3 | JavaScript | React

- Utilized JavaScript, React, HTML5, and CSS3 to create an interactive and user-friendly interface.
- Implemented responsive UI interface for three devices: mobile, tablet, and laptop using @media queries.
- Implemented sign-in and sign-up functionality, allowing users to sign in and sign up.
- Implemented sort and filter functionality for user convenience.

3. Weather App | 🌐 | 📱

HTML5 | CSS3 | JavaScript

- Developed an interactive and user-friendly weather app
- Implemented search functionality to search weather reports across the world
- Integrated map functionality for visual representation
- Provided 7-day forecast and sunrise/sunset times
- Utilized icons to enhance user experience
