Redux | Git

SOFT SKILLS

- Problem Solving
- Teamwork
- Adaptability
- Attention to Detail

INTERESTS

Fitness and Outdoor Activities |
Coding Challenges on LeetCode |
Watching sci-fi movies. |
I love Coding.

PROFESSIONAL SUMMARY

Passionate full-stack developer skilled in HTML, CSS, JavaScript, and React, with backend expertise in Node.js and Express.js. Adept at translating requirements into functional applications, with proficiency in Data Structures and Algorithms for optimized solutions. Committed to continuous learning and staying updated with web development trends to deliver high-quality, scalable applications.

PROJECTS

1. Fiverr Clone | |

React | JavaScript | Node.js | Express.js | MongoDB |
HTML5 | CSS3 | Responsive Web Design | Git |
Chakra UI

- Developed a comprehensive clone of Fiverr.com, implementing secure user authentication and password management.
- Created dynamic user interfaces with React, ensuring full responsiveness for improved navigation.
- Built efficient server-side logic using Node.js and Express.js, and managed scalable data with MongoDB.
- Seamlessly integrated dummy Razorpay payment gateway for secure and real-time transactions.
- Utilized Chakra UI for a visually appealing and consistent design.

2. Expedia Clone | |

HTML5 | CSS3 | JavaScript | React |
Responsive Web Design

- Developed an interactive and user-friendly interface using JavaScript, React, HTML5, and CSS3.
- Implemented responsive UI using media queries and ensured seamless navigation and interaction.
- Integrated sign-in and sign-up functionality for user convenience and data management.
- Added sort and filter functionality to enhance user experience.
- Used JSON Server as a mock server for data storage and management.

3. Weather App | |

HTML5 | CSS3 | JavaScript | RESTful APIs

- Leveraged OpenWeatherMap API to fetch and display current weather conditions globally.
- Integrated detailed 7-day weather forecast, including temperature, humidity, and wind speed.
- Developed an interactive map for enhanced user visualization and easier location selection.
- Incorporated weather icons for intuitive representation of weather conditions.
